1. The indicated allowability of claims 10-14, 18-23, 25, 26, 28-32, 34, 35, 37, and 38 is withdrawn in view of USPN 7,040,659. Rejections based on the newly cited reference(s) follow.

- 2. Claims 10-14, 18-23, 25, 26, 28-32, 34, 35, 37, and 38 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-23 of U.S. Patent No. 7,040,659. Although the conflicting claims are not identical, they are not patentably distinct from each other because every feature currently claimed is recited in or is an obvious variation of the earlier patented claims. Claims 12 and 20 recite a linear array of support posts. While the claims in the earlier patent do not specify linear alignment of the posts, such an arrangement would have been obvious to one of ordinary skill in the art, in order to compactly position the posts.
- 3. Claims 16, 17, 24, 27, 33, 36, and 39 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
- 4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anne Marie M. Boehler whose telephone number is 571-272-6641. The examiner can normally be reached on 7:30-5:00, Monday-Thursday, and alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lesley Morris can be reached on 571-272-6612. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
